

Computer User Agreement Primary School

I understand that many wonderful things can be done on the computers and iPads at the Academy of the Sacred Heart. I also understand that my parents and teachers want me to use them wisely. Using the computers and other technology devices at school is a privilege. I can earn and keep that privilege by using them properly. I agree to the following things:

- I will use the computers and iPads in ways that help me to live the *Goals*.
- I will make wise choices when printing and not waste ink or paper.
- I will ask a teacher before printing something.
- I will use the computers and iPads in approved places for school-related activities.
- I will not go on the Internet unless a teacher is there to help me.
- I will make sure the computer looks the same when I leave as when I sat down.
- I will be very gentle when using the computer.
- I will never share my username or password with anyone.

I realize that if I do not follow these rules, my ability to use the computers at school may be limited or taken away.
