2018 Camp Programs and Themes

Day Camp Themes

Week 1 ♦ June 11-15 ♦ \$275

Fun Out in the Sun

The clear blue sky, the long green grass, and the fresh smell of summer – it’s summertime at Sacred Heart! Everyone has their favorite thing they like to do outside in the summer. We are going to do as many of those things as we can this week: slip-n-sliding, nature hiking, playing sports, having picnics, cloud watching, painting, telling stories in the shade and so much more. Time to get outside for some fun in the sun!

Week 2 ♦ June 18-22 ♦ \$275

Backyard Bonanza

Backyard Bonanza is the perfect opportunity to be silly and goofy while being outside. Part of the philosophy of Summer at Sacred Heart is the re-creation of the “neighborhood” through the lens of a classic outdoor summer. This week will find us exploring essential backyard games, from ladder golf to bean bag toss, and discovering all aspects of our “backyard”, from the raised-bed garden to our fields and forest.

Week 3 ♦ June 25-29 ♦ \$275

Mad Science Laboratory

Are you crazy about science? Well, we are, and even if you are on the fence, you’ll come to live it, too! There is so much in our world to explore, and during this week campers will investigate and test a vast range of experiments that will change the way they see the world around them. Science has never been this fun!

Week 4 ♦ July 2, 3, 5, 6 ♦ \$220

ASH Jedi Training Academy

Join us as we explore the force within our campers. This week is going to be out of this world with campers participating in epic battles between good and evil, creating tools to help them protect the galaxy, participating in a Jedi obstacle course, and learning Jedi skills that will come in handy in the war for the galaxy, as well as down here on earth!

Week 5 ♦ July 9-13 ♦ \$275

Aliens & UFOs

We are going to use this week to explore the gigantic universe. The space program continues to captivate the imagination of Americans young and old, and we’re blasting off into a week that will pique “Curiosity” – and not just the Mars rover of the same name! We will investigate the sun and moon, planets, aircraft design, black holes, and think about who are the aliens’... humans, or whatever is beyond the moon.

Week 6 ♦ July 16-20 ♦ \$275

Slime Week

We are going to slip and slide our way into this awesome week– guaranteed to make your camper happy, and probably a little SLIMY! Campers will learn how to create slime several ways with many varied materials, adding ingredients to make it stretchy, foam to make it fluffy and items to add texture. But that’s not all! How much slime would it take to cover our slip-n-slide hill? We just might find out!

Week 7 ♦ July 23-27 ♦ \$275

Where the Wild Things Are

Just like in the book by Maurice Sendak, campers will arrive at camp and enter another world where they will be Queens and Kings. What type of world will they rule is yet to be discovered as we delve into the depths of their imaginations. Wild amounts of fun and adventure are guaranteed, and at the end of each day, we will return to our loving families, just like Max does in the book.

Week 8 ♦ July 30-August 3 ♦ \$275

ASH Amazing Race

Welcome to the intersection of fun and amazement – and there is no turning back now! Campers will race through exciting challenges as they decipher clues and solve puzzles. There will be roadblocks and detours along the way to the daily pit stops and final check-in, but win or lose, this week is sure to be “amazing!”

Week 9 ♦ August 6-10 ♦ \$275

Treasure Hunters

X marks the spot! Campers will need to put on their problem-solving caps this week if they are going to find any treasure. Riddles, puzzles, challenges and good old quick thinking will be requirements this week. Be prepared for an adventure with a very rewarding finish!

Week 10 ♦ August 13-17 ♦ \$275

Ninjas Vs. Pirates

This week should be an epic battle between two legends in the history of the world. Will you root for the mysterious and silent ninjas or the larger-than-life masters of the sea? Be prepared to develop and use your unique skills to help your side win daily challenges this week.
